Dairyman's Short Course is set for February 8-10, at VPI. The theme for this year's program "Aids and Trends to High Production". Registration fee is $2.00. I don't believe a dairyman from Appomattox has attended this event in recent years. By the way, the cost can be charged as a business expense for tax purposes. Registration forms are available from this office.

Service opportunities continue to avail themselves to all. Anyone 18 or over may apply for service in the Peace Corps, 4-H Peace Corps Projects, or VISTA. We have application forms for your use. This is not necessarily a program for college trained people. High school graduates with an agricultural background are prime prospects.

Hunter Evans, Supervisor, Farmers Home Administration, was by the office today. Said they had a new program for farmers who are interested in forestry. The loan may be secured to purchase land, prepare site, purchase seedlings and planting expense. The interest rate is 3 percent with a maximum repayment period of 40 years. When justified, the first payment of interest and principal may be deferred for up to 15 years. This looks like a real good opportunity for a lot of people. Hunter is at the ASCS office on Tuesday's — go by and talk with him about this.

Tobacco faces a bumpy road. In spite of a 10 percent reduction in flue-cured tobacco in 1964, the 1964 production was practically the same as 1963. 289 million pounds went into stabilization in 1964, bringing total stock to 3.8 billion pounds or three times the probably disappearance.

The 1964 fire-cured crop is estimated at 57 percent greater than 1963. Government receipts of Virginia grown fire-cured is sharply with the lowest carry over on record. The Kentucky-Tennessee type is the largest since 1957.

Fed cattle prices were up $3, over the low in May. Cattle slaughter is expected to remain high throughout the winter. Beef demand is strong, imports are down, and fed cattle prices through the winter are likely to average near October prices. Feeder cattle prices have been steady since spring in spite of the rise in fed cattle prices. Feeder cattle will probably remain under considerable pressure the next few months, since there is a plentiful supply available for feeding.

In 1964, 27,078 acres of Virginia Crops were certified for seed. Seed production may have a place on some farms, particularly small grain and clover.

354 cattle were marketed in Lynchburg in the Yearling Steer Sale and averaged 29.7¢ per lb. or $142.72 per head.

Two feeder calf sales: — the first had 997 calves weighing 467 lbs. and brought 32.72¢ per lb. or $106.99 per head. The second sale had 1289 calves weighing 442 lbs. and brought 29.3¢ per lb. or $99.17 per head.
